

VDI Optical Technologies in Automotive Engineering, Karlsruhe

Under the professional sponsorship of the VDI / VDE Society for Measurement and Automation Technology (GMA), experts at the "Optical Technologies in Automotive Engineering" conference in June 2018 are already picking up the industry's rapid development for the eighth time.

As the global market leader, Optics Balzers focuses on high-tech markets such as automotive. Visit our stand at the VDI conference from June 5 - 6, 2018 and find out about the unique solutions.

Wissensforum

Lasys, Stuttgart

Welcome to Lasys in Stuttgart from June 5 - 7, 2018. Come to our booth A16 in hall 4 to discover the unique solutions and the wide variety of applications that optical components allow. Check out our new Actioncenters "Microscope" and "Hypebox".

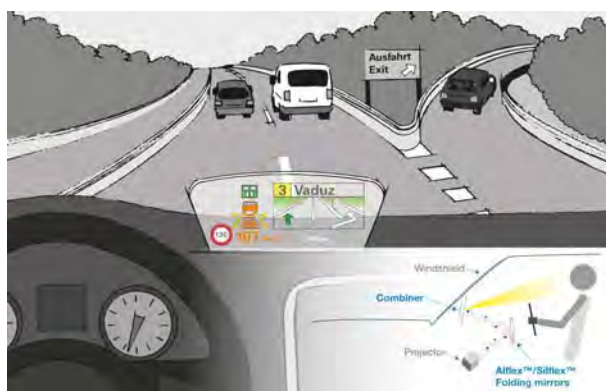

We look forward to welcoming you as our guest.

Combiner Head-Up Display

As HMI (human machine interface), the combiner head-up display plays a special role in the Automotive segment. The driver can read relevant information off the combiner pane, which is made from plastic or glass, without looking away from the traffic situation. An efficient mirror system has to project...

Laser Mirrors for ultra short pulses in the femto-second range successfully qualified

Optics Balzers AG excels in the production of laser mirrors for high-precision material processing

Processing materials by laser pulses in the nanosecond range has become standard in industry. Ever smaller and more precise structures can be made by latest laser technology, which...

Our next Events...

SPIE Optics + Photonics, San Diego

We have the pleasure of welcoming you to Optics Balzers AG at SPIE Optics + Photonics in San Diego, California from 21. - 23- August 2018. It is the premier event for optical engineering and applications, nanotechnology, quantum science, and organic photonics.

Come to our booth to discover the unique solutions and the wide variety of applications that optical components allow.

Photonics Festival / OPTO, Taiwan

As a global leader, Optics Balzers focuses on hightech markets including Biophotonics, Projection and Sensors & Imaging. Visit our booth at the Photonics Festival / OPTO trade fair in Taiwan from 29. - 31. August 2018.

We look forward to welcoming you as our guest.
